

AQUADIVE BATHYSCAPHE 100

INTRO

With the Bathyscaphe 100, we set out to create a new classic, with a state of the art scratch-free Ceramic bezel insert. A sports watch that looks ready to tackle any situation you might want to throw at it. While it looks straight out of the '60's, it's a thoroughly modern dive watch with a depth rating of 1000 meters.

The optional matching stainless steel mesh bracelet adds to the retro feel of this watch, while insuring all-day comfort.
